Testimonials

During the course of my tenure, in a senior position at a local university, we did engage LTT Global to be our partner in a number of projects with clients of the university especially in the areas of courseware development and systems development for online delivery. LTT Global has the capacity and commitment for timely development and meeting the standards set. Their flexible approach and being very professional in their work has helped the university in timely project completions. Therefore, it is not surprising that LTT Global has been recognised locally and abroad which can be seen from the multiple awards they received through the years!

Repin Ibrahim

Former COO, Meteor Sdn Bhd

Former VP Business Development, Open University Malaysia

I came across this wonderful customised knowledge portal in 2019 in Kuala Lumpur, Malaysia. I liked so much and now we subscribed this portal for our company. Madam Rani and Mr Analiz, provide excellent customer service and their respond time 24x7. They customised the portal for our business need within very short timelines. The portal is used by many of the young talent in our company to understand the gold mining business and the best practices without wasting time by googling. This is one stop centre for knowledge you need for your employees. Thank you.
